

Accessibility Statement

Park Primary School

2017

# Accessibility

---

Park Primary was built with accessibility for all in mind. The following facilities have been designed to enable people with physical disabilities to use the building:

- Specific parking bays in the staff car park
- A hearing loop in the School Reception Area, in several classrooms and the hall
- Wheel chair access through the whole building
- An accessible toilet and washing facilities

Visitors who require specific facilities should call the school office and speak to the admin officer.

Parents who are considering a school place for their child who has special needs should contact the SENCO, Miss Emma Leather, who can advise them.
